Subject index

Acetonitrile
In-situ FTIR study of anodic photoreactions at the n-TiO_2 (anatase) electrode in aprotic electrolyte solutions (Kavan et al.) 123

Adsorbed lead
In situ X-ray absorption spectroscopic study of adsorbed Pb on carbon-supported Pt (McBreen, Sansone) 227

Amino acids
Micro-enzyme sensors with osmium complex as mediator for L- and D-amino acids (Motonaka et al.) 75

Aminosilane
Aminosilane modified indium oxide electrodes for direct electron transfer of ferredoxin (Nishiyama et al.) 255

Aqueous perchlorate electrolyte
Infrared spectroelectrochemical study of cyanide adsorption and reactions at platinum electrodes in aqueous perchlorate electrolyte (Ashley et al.) 201

Atomic-scale restructuring
Nature of the atomic-scale restructuring of Pt(100) electrode surfaces as evidenced by in-situ scanning tunneling microscopy (Villegas, Weaver) 245

Bismuth chloride
Chemical and electrochemical behaviour of $BiCl_3$ in a $PbCl_2$ + KCl equimolar mixture at 475°C (Castrillejo et al.) 149

Carbon dioxide
Electroreduction of carbon dioxide on palladium electrodes at potentials higher than the reversible hydrogen potential (Podlovchenko et al.) 185

Carbon-supported platinum
In situ X-ray absorption spectroscopic study of adsorbed Pb on carbon-supported Pt (McBreen, Sansone) 227

Charge-transfer reactions
Charge-transfer reactions on electrodes covered with bilayers of conducting polymers (Maksymiuk) 97

Chemisorption
Monte Carlo studies of the chemisorption and work function temperature effects on noble metals (Romanowski, Gomes) 133

Cold fusion
Comments on the analysis of tritium content in electrochemical cells (Szpak et al.) 1

Conducting polymers
Charge-transfer reactions on electrodes covered with bilayers of conducting polymers (Maksymiuk) 97

CO_2 reduction
Structural efects on CO_2 reduction at Pt single-crystal electrodes. Part 2. Pt(111) and vicinal surfaces in the [0$\bar{1}$1] zone (Rodes et al.) 167

Cyanide adsorption
Infrared spectroelectrochemical study of cyanide adsorption and reactions at platinum electrodes in aqueous perchlorate electrolyte (Ashley et al.) 201

Cyclic voltammetry
Use of cyclic voltammetry for studying two-dimensional phase transitions: behaviour at low scan rates (Sánchez Maestre et al.) 31

Data analysis
Comments on the analysis of tritium content in electrochemical cells (Szpak et al.) 1

Differential pulse polarography
Application of partial least squares regression to highly overlapped differential-pulse polarographic peaks (García et al.) 235

Diffusion
Steady-state multicomponent diffusion and migration to a planar electrode. Part 2. Multiple electrode reactions (Pritzker) 39

Edge effect
The edge effect at planar electrodes: reversible case (Cope, Tallman) 53

Electrocatalysis
Electroreduction of carbon dioxide on palladium electrodes at potentials higher than the reversible hydrogen potential (Podlovchenko et al.) 185
Electrocatalytic oxidation of reduced nicotinamide coenzymes at gold and platinum electrode surfaces modified with a monolayer of pyrroloquinoline quinone. Effect of Ca^{2+} cations (Katz et al.) 189

Electrochemical cells
Comments on the analysis of tritium content in electrochemical cells (Szpak et al.) 1

Electrochemical properties
Poly(3-fluorothiophene) (El Kassmi et al.) 241

Electrochemical slow relaxation
Simulation of electrochemical slow relaxation at electrically conducting polymer-coated electrodes based on the concept of percolation (Aoki) 67

Electrochemistry
Chemical and electrochemical behaviour of $BiCl_3$ in a $PbCl_2$ + KCl equimolar mixture at 475°C (Castrillejo et al.) 149

Electrochromic properties
Synthesis and electrochromic properties of poly-*o*-aminophenol (Zhang et al.) 115

Electrode admittance
Fourier transform square-wave voltammetry (Baranski, Szulborska) 157

Electrodes
Charge-transfer reactions on electrodes covered with bilayers of conducting polymers (Maksymiuk) 97

Electrode surface
Scope of the short-range correlation effect for point dipoles adsorbed on the electrode surface (Lamperski) 211

Electron transfer
The edge effect at planar electrodes: reversible case (Cope, Tallman) 53

Electroreduction
Electroreduction of carbon dioxide on palladium electrodes at potentials higher than the reversible hydrogen potential (Podlovchenko et al.) 185
Electrostatic interachins
Scope of the short-range correlation effect for point dipoles adsorbed on the electrode surface (Lamperski) 211

Fast Fourier transform
Fourier transform square-wave voltammetry (Baranski, Szulborska) 157
Ferredoxin
Aminosilane modified indium oxide electrodes for direct electron transfer of ferredoxin (Nishiyama et al.) 255
Formic acid oxidation
Formic acid oxidation on Pt(111) electrodes modified by irreversibly adsorbed selenium (Llorca et al.) 217

Gold
Underpotential deposition of Zn^{2+} ions on platinum, palladium and gold at various pH values (Quaiyyum et al.) 61
Gold electrode
Electrocatalytic oxidation of reduced nicotinamide coenzymes at gold and platinum electrode surfaces modified with a monolayer of pyrroloquinoline quinone. Effect of Ca^{2+} cations (Katz et al.) 189

Highly oriented pyrolytic graphite
In situ scanning tunnelling microscopic study of nickel electrodeposition on HOPG (Chen et al.) 83
Host-guest complexation
Microelectrode voltammetry for studying host-guest complexation equilibria. An analysis of the possibilities of the method (Carofiglio et al.) 11
Hydrogen ionization
Effect of hydrogen sulphate ion on the hydrogen ionization and methanol oxidation reactions on platinum single-crystal electrodes (Kita et al.) 177
Hydrogen sulphate
Effect of hydrogen sulphate ion on the hydrogen ionization and methanol oxidation reactions on platinum single-crystal electrodes (Kita et al.) 177

Inclusion complexes
Microelectrode voltammetry for studying host-guest complexation equilibria. An analysis of the possibilities of the method (Carofiglio et al.) 11
In situ IR spectroscopy
In-situ FTIR study of anodic photoreactions at the n-TiO_2 (anatase) electrode in aprotic electrolyte solutions (Kavan et al.) 123
Interfacial charge transfer reaction
Fourier transform square-wave voltammetry (Baranski, Szulborska) 157
Intrazeolite electrochemistry
Electrochemistry of chemically modified zeolites: discussion and new trends (Bedioui et al.) 19
Ionic species
The influence of overoxidation treatment on the permeability of polypyrrole films (Gao et al.) 141
IR spectroelectrochemistry
Infrared spectroelectrochemical study of cyanide adsorption and reactions at platinum electrodes in aqueous perchlorate electrolyte (Ashley et al.) 201

Lead chloride
Chemical and electrochemical behaviour of $BiCl_3$ in a $PbCl_2$ + KCl equimolar mixture at 475°C (Castrillejo et al.) 149

Magnesium-selective electrode
Neutral carrier-based magnesium-selective electrode (Saleh) 89
Metal complexes
Electrochemistry of chemically modified zeolites: discussion and new trends (Bedioui et al.) 19
Methanol oxidation
Effect of hydrogen sulphate ion on the hydrogen ionization and methanol oxidation reactions on platinum single-crystal electrodes (Kita et al.) 177
Microelectrode voltammetry
Microelectrode voltammetry for studying host-guest complexation equilibria. An analysis of the possibilities of the method (Carofiglio et al.) 11
Micro-enzyme sensors
Micro-enzyme sensors with osmium complex as mediator for L- and D-amino acids (Motonaka et al.) 75
Migration
Steady-state multicomponent diffusion and migration to a planar electrode. Part 2. Multiple electrode reactions (Pritzker) 39
Modified electrodes
Electrochemistry of chemically modified zeolites: discussion and new trends (Bedioui et al.) 19
Molten salts
Chemical and electrochemical behaviour of $BiCl_3$ in a $PbCl_2$ + KCl equimolar mixture at 475°C (Castrillejo et al.) 149
Monte Carlo method
Scope of the short-range correlation effect for point dipoles adsorbed on the electrode surface (Lamperski) 211
Monte Carlo simulations
Monte Carlo studies of the chemisorption and work function temperature effects on noble metals (Romanowski, Gomes) 133
Multicomponent systems
Steady-state multicomponent diffusion and migration to a planar electrode. Part 2. Multiple electrode reactions (Pritzker) 39
Multiple electrode reactions
Steady-state multicomponent diffusion and migration to a planar electrode. Part 2. Multiple electrode reactions (Pritzker) 39

NADH oxidation
Electrocatalytic oxidation of reduced nicotinamide coenzymes at gold and platinum electrode surfaces modified with a monolayer of pyrroloquinoline quinone. Effect of Ca^{2+} cations (Katz et al.) 189
Neutral carrier
Neutral carrier-based magnesium-selective electrode (Saleh) 89
Nickel electrodeposition
In situ scanning tunnelling microscopic study of nickel electrodeposition on HOPG (Chen et al.) 83
Noble metals
Monte Carlo studies of the chemisorption and work function temperature effects on noble metals (Romanowski, Gomes) 133

Organic conductors
Poly(3-fluorothiophene) (El Kassmi et al.) 241
Osmium complex
Micro-enzyme sensors with osmium complex as mediator for L- and D-amino acids (Motonaka et al.) 75
Overlapped differential-pulse polarographic peaks
Application of partial least squares regression to highly overlapped differential-pulse polarographic peaks (García et al.) 235

Overoxidation
The influence of overoxidation treatment on the permeability of polypyrrole films (Gao et al.) 141
Oxidation
Particle size effect for oxygen reduction and methanol oxidation on Pt/C inside a proton exchange membrane (Kabbabi et al.) 251

Palladium
Underpotential deposition of Zn^{2+} ions on platinum, palladium and gold at various pH values (Quaiyyum et al.) 61
Electroreduction of carbon dioxide on palladium electrodes at potentials higher than the reversible hydrogen potential (Podlovchenko et al.) 185
Partial least squares regression
Application of partial least squares regression to highly overlapped differential-pulse polarographic peaks (García et al.) 235
Percolation
Simulation of electrochemical slow relaxation at electrically conducting polymer-coated electrodes based on the concept of percolation (Aoki) 67
Permeability
The influence of overoxidation treatment on the permeability of polypyrrole films (Gao et al.) 141
Photoanodic reactions
In-situ FTIR study of anodic photoreactions at the n-TiO_2 (anatase) electrode in aprotic electrolyte solutions (Kavan et al.) 123
Planar electrode
Steady-state multicomponent diffusion and migration to a planar electrode. Part 2. Multiple electrode reactions (Pritzker) 39
Planar electrodes
The edge effect at planar electrodes: reversible case (Cope, Tallman) 53
Platinum
Underpotential deposition of Zn^{2+} ions on platinum, palladium and gold at various pH values (Quaiyyum et al.) 61
Platinum electrode
Electrocatalytic oxidation of reduced nicotinamide coenzymes at gold and platinum electrode surfaces modified with a monolayer of pyrroloquinoline quinone. Effect of Ca^{2+} cations (Katz et al.) 189
Platinum electrodes
Formic acid oxidation on Pt(111) electrodes modified by irreversibly adsorbed selenium (Llorca et al.) 217
Platinum single-crystal electrodes
Effect of hydrogen sulphate ion on the hydrogen ionization and methanol oxidation reactions on platinum single-crystal electrodes (Kita et al.) 177
Point dipoles
Scope of the short-range correlation effect for point dipoles adsorbed on the electrode surface (Lamperski) 211
Poly(3-fluorothiophene)
Poly(3-fluorothiophene) (El Kassmi et al.) 241
Poly(halogenothiophenes)
Poly(3-fluorothiophene) (El Kassmi et al.) 241
Polymer-coated electrodes
Simulation of electrochemical slow relaxation at electrically conducting polymer-coated electrodes based on the concept of percolation (Aoki) 67
Poly-*o*-aminophenol
Synthesis and electrochromic properties of poly-*o*-aminophenol (Zhang et al.) 115
Polypyrrole films
The influence of overoxidation treatment on the permeability of polypyrrole films (Gao et al.) 141
Propylene carbonate
In-situ FTIR study of anodic photoreactions at the n-TiO_2 (anatase) electrode in aprotic electrolyte solutions (Kavan et al.) 123
Proton exchange membrane
Particle size effect for oxygen reduction and methanol oxidation on Pt/C inside a proton exchange membrane (Kabbabi et al.) 251
Pt(111)
Structural efects on CO_2 reduction at Pt single-crystal electrodes. Part 2. Pt(111) and vicinal surfaces in the [0$\bar{1}$1] zone (Rodes et al.) 167
Pt(211)
Structural efects on CO_2 reduction at Pt single-crystal electrodes. Part 2. Pt(111) and vicinal surfaces in the [0$\bar{1}$1] zone (Rodes et al.) 167
Pt(755)
Structural efects on CO_2 reduction at Pt single-crystal electrodes. Part 2. Pt(111) and vicinal surfaces in the [0$\bar{1}$1] zone (Rodes et al.) 167
Pt single crystal electrodes
Structural efects on CO_2 reduction at Pt single-crystal electrodes. Part 2. Pt(111) and vicinal surfaces in the [0$\bar{1}$1] zone (Rodes et al.) 167
Pyrroloquinoline quinone monolayer
Electrocatalytic oxidation of reduced nicotinamide coenzymes at gold and platinum electrode surfaces modified with a monolayer of pyrroloquinoline quinone. Effect of Ca^{2+} cations (Katz et al.) 189

Reaction kinetics
Microelectrode voltammetry for studying host-guest complexation equilibria. An analysis of the possibilities of the method (Carofiglio et al.) 11
Redox reactions
Electrochemistry of chemically modified zeolites: discussion and new trends (Bedioui et al.) 19
Reduction
Particle size effect for oxygen reduction and methanol oxidation on Pt/C inside a proton exchange membrane (Kabbabi et al.) 251

Scanning tunneling microscopy
In situ scanning tunnelling microscopic study of nickel electrodeposition on HOPG (Chen et al.) 83
Nature of the atomic-scale restructuring of Pt(100) electrode surfaces as evidenced by in-situ scanning tunneling microscopy (Villegas, Weaver) 245
Selenium layer
Formic acid oxidation on Pt(111) electrodes modified by irreversibly adsorbed selenium (Llorca et al.) 217
Short-range correlation effect
Scope of the short-range correlation effect for point dipoles adsorbed on the electrode surface (Lamperski) 211
Square-wave voltammetry
Fourier transform square-wave voltammetry (Baranski, Szulborska) 157
Structural effects
Structural efects on CO_2 reduction at Pt single-crystal electrodes. Part 2. Pt(111) and vicinal surfaces in the [0$\bar{1}$1] zone (Rodes et al.) 167
Surface chemistry
Infrared spectroelectrochemical study of cyanide adsorption and reactions at platinum electrodes in aqueous perchlorate electrolyte (Ashley et al.) 201
Synthesis
Poly(3-fluorothiophene) (El Kassmi et al.) 241

Temperature effects
Monte Carlo studies of the chemisorption and work function temperature effects on noble metals (Romanowski, Gomes) 133
Three-dimensional lattice model
Three-dimensional lattice model of TIP4P water molecules and non-polar trimeric solute molecules against a charged wall predicting two-dimensional condensation (Guidelli, Aloisi) 107
TIP4P water molecules
Three-dimensional lattice model of TIP4P water molecules and non-polar trimeric solute molecules against a charged wall predicting two-dimensional condensation (Guidelli, Aloisi) 107
Titanium dioxide
In-situ FTIR study of anodic photoreactions at the n-TiO_2 (anatase) electrode in aprotic electrolyte solutions (Kavan et al.) 123
Tritium production
Comments on the analysis of tritium content in electrochemical cells (Szpak et al.) 1
Two-dimensional condensation
Three-dimensional lattice model of TIP4P water molecules and non-polar trimeric solute molecules against a charged wall predicting two-dimensional condensation (Guidelli, Aloisi) 107
Two-dimensional phase transitions
Use of cyclic voltammetry for studying two-dimensional phase transitions: behaviour at low scan rates (Sánchez Maestre et al.) 31

Underpotential deposition
Underpotential deposition of Zn^{2+} ions on platinum, palladium and gold at various pH values (Quaiyyum et al.) 61

Work function
Monte Carlo studies of the chemisorption and work function temperature effects on noble metals (Romanowski, Gomes) 133

X-ray absorption spectroscopy
In situ X-ray absorption spectroscopic study of adsorbed Pb on carbon-supported Pt (McBreen, Sansone) 227

Zeolites
Electrochemistry of chemically modified zeolites: discussion and new trends (Bedioui et al.) 19
Zinc ions
Underpotential deposition of Zn^{2+} ions on platinum, palladium and gold at various pH values (Quaiyyum et al.) 61
